Looking for the best place to find souvenirs? You may think the only authentic goodies are off post, but the truth is you can find almost everything at Camp Walker, and the prices can't be beat.

The two shops that you must check out here at Camp Walker are the "Apple Tree Gift & Thrift Shop" and the gift store located in the mini-mall. These shops are very convenient and cater to your every need. The souvenirs range from magnets to authentic Korean robes, from post cards to pottery.

The "Apple Tree Gift

The spirit of “Hwarang”

It's August, and warriors have amassed to show their combat readiness in this year's Ulchi Focus Lens exercise.

UFL is a routine, regularly scheduled summer exercise involving forces from both the Republic of Korea and the United States. It is designed to evaluate and improve combined and joint coordination, procedures, plans and systems necessary for the conduct of contingency operation of R.O.K and U.S. Forces.

Fifteen centuries ago, when this part of Korea was known as the Kingdom of Shilla, a group of Shilla warriors called the “Hwarang” demonstrated their battle skills and their nobility in this same area. The Hwarang was a youth organization led by a single “Kook sun,” the spiritual leader. Under this leader, the Hwarangs led thousands of “Nangdo”, to become a Hwarang. These young, aspiring warriors trained in martial arts and in academics, aspiring to become a Hwarang. A knightly code of conduct resulted from Hwarang-do training, and the Hwarang engaged in both military and spiritual exercises to cleanse and train their minds and bodies.

It is in the spirit of Hwarang that this newsletter was created to honor the servicemembers and events of this year's UFL exercise that demonstrate the spirit of Hwarang.

This newsletter is also available on-line at <http://www.korea.army.mil/pao/hwarang/hwarang3.htm>.

If any of our readers know of any sections or individuals who possess this spirit of courage, intelligence and nobility, let us know by calling 764-3043 or e-mailing us at rozeanj@usfk.korea.army.mil.

Zanini: keep up the good work, stay focused

By
Lt. Gen. Daniel R. Zanini
EUSA CG

The first week of Ulchi Focus Lens 2001 is now complete and all indicators point toward a very successful command post exercise. The staff sections are fully engaged in practicing the procedures, plans, and systems necessary to conduct contingency operations of ROK and U.S. forces.

To conduct a combined and joint exercise of this magnitude takes graduate-level work by the entire team. Take the time to capture lessons as we continue to refine our internal SOPs.

Of equal importance to the conduct of the exercise are all the soldiers and civilians behind the scenes providing support. This is a total team effort, and I am

Lt. Gen. Daniel R. Zanini

impressed with the standard of excellence displayed by all. Thanks for what you are doing.

As we move into the second week of the exercise, we need to maintain our focus. I expect leaders to monitor their risk management procedures. Safety, especially during hours of limited visibility, is paramount.

Stay focused. Stay safe.

Shop til you drop in, around Cp. Walker

continued from page 1

open Thurs. and Fri. this week and next from 3-7 p.m.

The shopping in the mini-mall will also take you by surprise. You can stop in to get a custom-made suit, or if you would like something more traditional, try a robe on for size. If you can't decide which one looks best, the friendly staff will be happy to give you their suggestion. With these prices you will probably be

tempted to buy both (just be sure to leave enough room in your duffle bag!).

When going off post to shop be sure to have plenty of Won in your wallet, and if possible bring someone who speaks a little Korean. Many shops don't accept American currency and bargaining is easier when you speak their language. Having the experience of market shopping can be fun, but buyer beware!

Trying not to "stick out" is impossible for most Americans and could make you an easy target for those looking to make an extra Won.

Confirm all your prices in advance. And don't be afraid to shop around for the best bargain, it may be closer than you think!

X-treme bowling night

Saturday is X-treme bowling night at the Camp Walker Bowling Center. The lights go out and the music starts at 6 p.m.

R & B night

Camp Walker's Hilltop Club will start playing Rhythm and Blues at 8 p.m. Saturday night.

CAC weekend events

Chess and table tennis tournaments are scheduled for this weekend. Interested soldiers should call 764-5919 for more information.

The CAC has many services at little or no cost, including recreation equipment, bike rental and local tours. The center has a library, an arts and crafts center as well as a variety of games, including billiards, table tennis and chess.

PT safety

Personnel conducting PT on Camp Walker need to wear a road guard vest.

The vest is not only a standard uniform requirement, but it is also a safety precaution.

Out and about in Daegu

A city rich in culture, history

By Spc. Christopher Willis
65th Press Camp

The city of Daegu enjoys a rich history dating back more than 3,000 years. Daegu is an ancient city defined by its topography and people and is famous for its Busa apples.

Korea's third largest city, with a population of more than 2 million people, is located in a valley. To the north lies the Palgong Mountains and to the south runs the Nakdong River. Shinchon stream runs north through the center of the city and Gumho River flows in the northern hill areas. Because the city lies in a pocket surrounded by a continental basin, combined with the many rivers and streams, it maintains a consistent temperature. The city's topography causes the temperature to be hot and humid during the summer and very cold throughout the winter.

Koreans recognize Daegu as a

cultural and intellectual city. There are two major universities, Daegu University and Kyungpook National University, as well as Buddhist relics, temples and art.

If you enjoy shopping, Daegu has several great traditional Korean marketplaces; noteworthy are the Chilsung, Somun and Bongduk markets.

Daegu is most revered for its Busa or Daegu apples. These large red apples, which often grow to softball-size proportions, are very sweet and crunchy. The apples grow so large because they can flourish in the Daegu climate.

Mt. Palgong Natural Park and Aspen Park offer tremendous views of the city; for a sky-high view within Daegu, there is the Woobang (or Daegu) Tower, which resembles the Seattle space needle. In addition, there are temples, amusement parks, U-bang Towerland, a children's park, and other historic and scenic locations, many of which hold national treasures.
